More by T.M. FRANKLIN

Ava Michaels used to think she was special. As a child, she fantasized about having magical powers . . . making things happen. She felt different from others her age, and just knew she was meant for something important. But, like most kids, Ava grew up and eventually accepted the fact that her childish dreams were just that, and maybe a normal life wasn't so bad after all.

Now a young college student, Ava begins to wonder if there were more to her childhood fantasies than she thought. She's haunted by terrifying nightmares of a frightening man chasing her, determined to catch her, to take her—a huge hulk of a man with one blue eye and one green. Even during daylight hours, there are moments her hair stands on end with an uneasy prickle of awareness . . . and she just can't shake the feeling that she's being watched.

Unable to decide if she's imagining things or just plain crazy, Ava finds an unlikely ally in Caleb Foster, a brilliant and mysterious man who comes to her rescue as a Physics tutor, but in reality has another mission in mind. What he shows Ava challenges her view of the world, shaking it to its very core.

The thing is, Caleb's not quite what he seems. In fact, he's not entirely human, and he's not the only one.

Together, the duo faces a threat from an ancient race bound to protect humans, but only after protecting their own secrets—secrets they fear Ava may expose. Now they're after her, bent on her capture or maybe even her extinction.

Fighting to survive, Ava has to depend on Caleb to lead her through the strange new world opening up before her. A world of magic and mystery, where she learns she's not

Damaged Goods by ALEXANRA ALLRED

On paper, Marcus, Texas, looks like any other small town in Texas. Its landscape is charming, lifelong residents have a shared history, and business is booming. But soon after Joanna Lucas moves to town, she makes startling discoveries. Her next door neighbor had her leg gnawed off by a loose tiger, a beer-drinking emu lurks on her property, and her real estate agent neglected to mention that something in Marcus was making the residents very sick. While Joanna ponders hiring illegal immigrants to work on her newly acquired but dilapidated house, others are wondering about Joanna. Is she the one? Could she be the outsider they have been looking for to turn things upside-down and reveal the ugly truth?

With such heavy topics as corporate greed, industrial pollution, illegal immigrants, and corrupt politicians, only the residents of Marcus could make *Damaged Goods* a comedy. Prepare to cheer and laugh out loud as they fight city hall!

Ghostwriter by LISSA BRYAN

After being laid off from the newspaper where she worked as a journalist, and losing her boyfriend in rapid succession, Sara Howell is looking to downsize before her dwindling savings run out. Things are finally starting to look up when she lands a job ghostwriting a popular politician's biography and rents an isolated island house, which turns out to have once been the home of her favorite author, Seth Fortner, who mysteriously disappeared in 1925. But when strange things start happening, as objects break or go missing, and terrifying visions appear, Sara begins to wonder if Seth ever left, or if she is slowly losing her mind.

What happened to Seth is a secret closely guarded by the family to this day, a family who seems to exist under a terrible curse. Through an old trunk of letters she discovers in the attic, Sara unravels the mystery and becomes caught up in a tale of greed, lost love and the horrors of WWI.

When Sara realizes she is not going crazy and that Seth Fortner's spirit still haunts her new home on the isolated island, she begins to draw him out of his shell bit by bit. She will discover what happened to the idealistic young writer who went to the battlefields of France to save lives, and to his beautiful bride to destroy the love between them, as well as what led Seth to make a terrible choice which had consequences that would echo for generations.

Gradually, they fall in love in their world of dreams, dreams which swiftly become more attractive than reality, and Sara learns from a ghost how to truly live. Will Sara be the one to break the "Fortner Curse" by helping Seth conquer his demons, and heal both of their hearts in the process?

The Enchanted by K.B. HOYLE

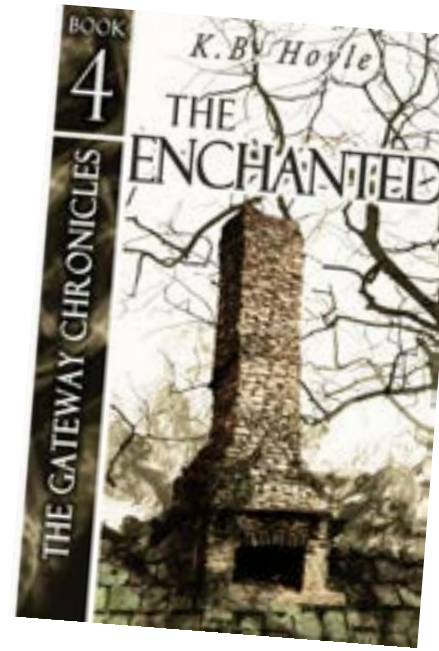

"Enchantments are powerful—the most powerful magic we have," Rubidius said. "They can change the nature and composition of animate and inanimate things alike, and they can foil the plans of the most determined foes."

"What do enchantments have to do with me?" Darcy whispered.

"Everything."

Darcy Pennington's course was plotted out for her long before she ever stepped foot in Alitheia, but Colin Mackaby seems determined to hamper and confuse the way as much as he can. Darcy begins to suspect that it is not Colin working against her, but a malevolent force working through him—a force seeking to hasten Darcy's transformation into one of the very creatures she is supposed to fight. Darcy is finally willing to follow the prophesied path, even agreeing to her much-resisted marriage to Tellius, but soon after she returns to Alitheia, everything spirals out of her control. A painful rejection almost pushes her over the edge, and when she demands answers from Rubidius, he provides her only with more painful secrets she must keep from the others. In the meantime, Darcy and her friends finally set out to confront one of Tselloch's gateways, fulfilling—so they think—the great prophecy of the Six. But when faced with practicing their magic against Tselloch's evil power, nothing turns out as expected.

Enchantments protect them as sorcery attacks them, and Colin Mackaby dogs their every step along the way. In the minds of the Alitheians, if Darcy cannot repair the breach that has formed between herself and Tellius,

A Political Affair by MARY WHITNEY

The scion of a revered political dynasty, Senator Stephen McEvoy was groomed to lead, but no one expected it so soon—least of all him. After his father's sudden death, he's appointed to fill his seat. Now he must win a tough election against an archconservative.

Though Stephen is a ladies' man, he's never let his love life interfere with his career—until he meets Anne Norwood, a new intern. At first, he dismisses her as just another pretty young thing, only more interesting. Stephen tries to steer clear of her, but with each sighting and interaction, an unspoken mutual attraction develops. Anne's independent streak and clever mind intrigue him, and with his guard down, she discovers he's far more interesting than his Senator McEvoy persona. They're both too smart to fall for one another, yet they do.

Luckily for Stephen, no political dynasty is successful if left to one man. Stephen's sisters, Patty and Megan, guard the family name, and their mother, Lillian, is both loving parent and shrewd matriarch. When she learns Stephen is willing to risk his seat for Anne, she decides the family will chaperone them in secret. Despite the compromise, the family remains committed to keeping the McEvoy Senate seat at any cost.

Stephen's Senate race receives national attention as their feelings deepen and the political dangers increase. His opposition is steered by a conservative Godfather who investigates Stephen's life, looking to pounce on any misstep. As they take greater risks seeing one another, Stephen's past affairs and Republican opposition catch up with him, and they must fight for their future. In the heat of an election, no one is above surveillance, rumors, and threats. Campaigns—like love—are either won or lost.

Naturally, Charlie by S.L. SCOTT

Twenty-five year old Charlotte "Charlie" Barrow is caught between her old life and the one she is beginning to build when she crosses paths with a handsome stranger on the subway. Not looking for romance, she closes her heart off to the possibilities of love. With a knack for mishaps, Charlie maintains her sense of humor while befriending the kind stranger who seems to be there at all the right times.

New York freelance writer, Charlie Adams, is forging his own path beyond the expectations of the society circles of his childhood. Rejecting family money, and fast-lane friends, he is snubbed by his family as he follows his own compass to a life more extraordinary.

Their chemistry is palpable as they balance precariously on the line that divides them as friends or more.

Charlie walks close, so close, and drops his arms forward on either side of mine. He's trapped me between them, and although I shouldn't want this with a friend, I do with him. I want it more than I should. I love being this close to him, but instead of giving in, I hold my own, standing my ground. His head moves even closer to mine, but he purposely keeps our bodies apart.

"I bet I can."

I stare into his blue eyes. My heart is pounding in my chest as his breath hits my face. I often find myself reacting to him in ways that I wouldn't normally to others. Maybe it's because I like these games we play, the ones that involve our heads and our hearts.

"I dare you."

Allie Jean

Allie Jean was born with an overactive imagination. At a very early age, her days were spent inventing stories, directing her sisters in made-up plays or telling elaborate ghost stories. Her mind never took breaks, or shutdown, even when she slept. Now, living in California with her husband of ten years, her love of storytelling had taken a back seat with the arrival of their four children. Though, she always found time to write down her thoughts on whatever was handy, including a stray diaper or two while rocking a sleeping child in the middle of the night when her character's begged for attention as well.

As a busy wife, mother and working full-time outside the home, somehow she has been able to write down her relentless character's story. Her once secret hobby and private world, is now released, for others to enjoy. Nothing would make Allie happier than to continue writing and spend more time at home with her family on a more full-time basis.

In the Heart of Grace

Love is in the air in the quiet little town of Noyac, Long Island.

In this second installment of the Grace series, In the Heart of Grace, Susan and Tom's romance has taken off at full speed, and they can't help but wonder if Grace is up to her old tricks again.

Thanks to a generous gift from her elderly and clairvoyant neighbor Grace and the new love of her life Tom, Susan is thrilled that her yard and the exterior of her little house are getting an extreme makeover.

After losing her well-paying position as a gem broker weeks before, Susan wonders how she could have dealt with the new adventures of the "quiet life" had she still been commuting into New York City.

When Grace struggles with muddled thoughts and incomplete sentences, everyone is worried, but her clairvoyant ability is unaffected. After all, she manages to get her doctor and Susan's mother together in a convoluted way, and the two widowers take off on a whirlwind romance.

But that's not the end of Susan's troubles. When she sees Tom with another woman, she assumes the worst. When Tom confronts her about the cold shoulder she's giving him, she tries to get rid of him and injures her ankle in the process. Grace agrees to call an ambulance, but calls Tom instead and forces Susan confront her issues with Tom while accepting his help and learning an invaluable lesson.

Add to this a bank robbery and Grace's desire to make financial decisions while she not quite in her right mind and everyone finds there is nothing "quiet" about this life. In the Heart of Grace delves deeper into the heart of an amazing woman who teaches Susan and those she cherishes what love is all about.

Gene Doucette

In addition to ghost writing for an immortal man, Gene Doucette has been published as a humorist with *Beating Up Daddy: A Year in the Life of an Amateur Father* and *The Other Worst Case Scenario Survival Handbook: A Parody*. He is also a screenwriter and a playwright. Gene lives in Cambridge, MA with his wife and two children.

Immortal

"I don't know how old I am. My earliest memory is something along the lines of fire good, ice bad, so I think I predate written history, but I don't know by how much. I like to brag that I've been there from the beginning, and while this may very well be true, I generally just say it to pick up girls."

--Adam the Immortal

Surviving sixty thousand years takes cunning and more than a little luck. But in the twenty-first century, Adam confronts new dangers—someone has found out what he is, a demon is after him, and he has run out of places to hide. Worst of all, he has had entirely too much to drink.

Immortal is a first person confessional penned by a man who is immortal, but not invincible. In an artful blending of sci-fi, adventure, fantasy, and humor, IMMORTAL introduces us to a world with vampires, demons and other "magical" creatures, yet a world without actual magic.

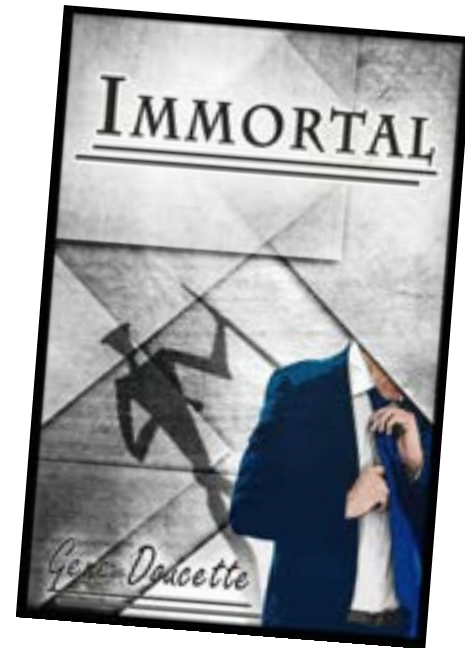

At the center of the book is Adam.

"I have been in quite a few tight situations in my long life. One of the first things I learned was if there is going to be a mob panic, don't be standing between the mob and wherever it is they all want to go. The second thing I learned was, don't try to run through fire."

--Adam the Immortal

Adam is a sixty thousand year old man. (Approximately.) He doesn't age or get sick, but is otherwise entirely capable of being killed. His survival has hinged on an innate ability to adapt, his wits, and a fairly large dollop of luck. He makes for an excellent guide through history . . . when he's sober.

Immortal is a contemporary fantasy for non-fantasy readers and fantasy enthusiasts alike.

Hellenic Immortal

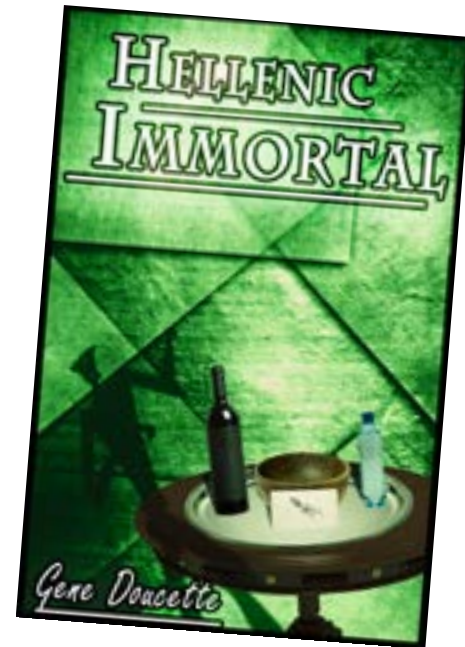

"Very occasionally, I will pop up in the historical record. Most of the time I'm not at all easy to spot, because most of the time I'm just a guy who does a thing and then disappears again into the background behind someone-or-other who's busy doing something much more important. But there are a couple of rare occasions when I get a starring role." --Adam the Immortal

An oracle has predicted the sojourner's end, which is a problem for Adam insofar as he has never encountered an oracular prediction that didn't come true . . . and he is the sojourner. To survive, he's going to have to figure out what a beautiful ex-government analyst, an eco-terrorist, a rogue FBI agent, and the world's oldest religious cult all want with him, and fast.

And all he wanted when he came to Vegas was to forget about a girl. And maybe have a drink or two.

"I am probably not the best source when it comes to who invented what. For a long time I thought I invented the wheel." --Adam the Immortal

The second book in the Immortal series, Hellenic Immortal follows the continuing adventures of Adam, a sixty-thousand-year-old man with a wry sense of humor, a flair for storytelling, and a knack for staying alive. Hellenic Immortal is a clever blend of history, mythology, sci-fi, fantasy, adventure, mystery and romance. A little something, in other words, for every reader.

Joey Mills

Joey Mills was born and has lived in the Missouri Ozarks his entire life. His love of reading was cultivated at an early age and nurtured throughout his formative years.

However, unless he entered the academic fields, that love of story wasn't going to land him a job. So Joey took assorted office jobs throughout the 2000s to support his young and growing family. If you changed long distance providers, bought a Beetles T-shirt, or received a sporting goods catalog in the mail during this time, there's a chance that Joey was somehow involved.

Throughout this decade a field of story ideas blossomed in his head -probably something to do with all the time behind a desk doing mindless work that allowed his imagination to wander - and Joey began to jot some of them down. One of those became the basis for "Crowe", his first novel released by TWCS Publishing House in March 2011. Others are being cultivated and shaped into future works for TWCS.

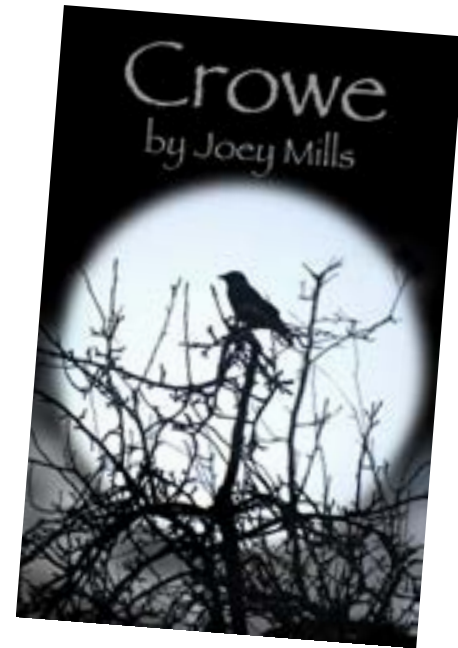

When he's not writing, Joey is a stay-at-home father of three kids. His wife's love and support has allowed him to refine his writing style and pursue his dream of pumping out consistently good reads.

Crowe

Johnny Crowe is an outsider who longs for the acceptance of the folks of the small town of Fiddler's Picket. In the spring of 1862, Johnny enlists in the Confederate Army with the hope of making something of himself and, in return, earning the respect that he yearns for.

Leaving his home on Devil's Knob as well as his beloved Anna Lee behind, Johnny travels to Richmond, Virginia, to enlist. Over the spring and summer, the war takes its toll on Johnny's mind, body, and soul. Aid comes in the form of the mysterious Mr. Scratch, who always has a solution for Johnny's predicament in his magical trunk; provided that Johnny is willing to pay the price.

Follow Johnny as he works his way up through the ranks of the Army in the process of finding his way back home to Fiddler's Picket. Will Anna Lee accept the man who comes home in place of the boy she once knew? What price is Johnny willing to pay to make it back to her? And what dark secret awaits him upon his return to Devil's Knob?

The Six

Darcy Pennington hates her life. She is an insufferably average teenager with no real friends, crushing social anxiety, and an indescribable sense of not fitting in anywhere. A change in her dad's job forces her to attend Cedar Cove Family Camp the summer before her eighth-grade year, and Darcy once again finds herself on the outside of a social circle of teenagers, with her only advocate being an awkward girl named Samantha Palm. The only problem is, Darcy has no desire to be friends with her, but as the hostility from the other teenagers increases, she decides to return the friendship.

When Darcy begins to experience strange magical occurrences, she comes to believe she's either losing her mind or on the brink of a discovery that could give her purpose in life. After unwittingly stumbling through a magical gateway to a new world called Alitheia, she convinces Sam and the other four teenagers to travel there with her, and despite their earlier hostilities toward her, they eventually concede leadership of their small group to Darcy. Once there, they learn the "arrival of the Six" was prophesied hundreds of years before, and that they must expel an ancient evil from the land. In the end their lives, and the fate of Alitheia, will hinge upon Darcy. Will she have what it takes to fulfill her mysterious purpose? Or will she fall prey to a deadly foe?

The Oracle by K.B. HOYLE

A year ago Darcy Pennington had no real friends. A year ago she'd thought that magic only existed in fairy tales. A year ago she would have laughed at the idea of other worlds.

Then everything changed when she'd visited Cedar Cove Family Camp and stumbled into a magical gateway to a world called Alitheia.

It is the summer before freshman year and Darcy and her five friends have come back to Cedar Cove Family Camp and Alitheia. This return is bittersweet because her elusive purpose in the magical realm continues to evade her. Egged on by Tellius, the boy prince she is prophesied to marry, Darcy rebels and impulsively "petitions" an entity called the Oracle and requests it give her information as to her purpose. In order to receive her answer she must travel to the Oracle, and so she embarks on a journey along with her friends and Yahto Veli, the nark. Too late she realizes her selfish entreaty has thrown the entire outcome of the prophecy itself into question and endangered everyone. Uncertainties mount between Darcy and her companions as they fight their way through enemy territory to locate the Oracle, and an unwelcome visitor from Cedar Cove adds a layer of mystery that none of them are prepared for.

But the perils of the quest are nothing when compared to what lies in wait for her in the lair of the Oracle. There is a cost associated with every question asked— a cost that may be far greater than Darcy is willing to pay. And someone may choose to make the ultimate sacrifice to free her from it.

The White Thread by K.B. HOYLE

For the duration of her freshman year, Darcy Pennington agonized over the fate of her dear friend, the nark Yahto Veli, who sacrificed himself to the Oracle to set her free. As her third trip to camp, and to the magical land, approaches, Darcy wonders if she's capable of the daring rescue she wants to embark upon, but soon realizes there's much more at stake.

Her return to Cedar Cove Family Camp is marked by a mysterious disappearance, and in Alitheia a new message from the Oracle adds to the riddles that must be deciphered if they are to expel the dark evil that hovers over the land. The six friends and the alchemist Rubidius plan a sea journey that will take them beyond the borders of Alitheia, and into the realm of a legendary archipelago. Tellius winds up joining them as well and the foes they meet along the way are both deceptive and charming, while the Oracle's riddles seem to dog them at every turn. Darcy is also hiding a secret from her best friend Sam that could test their friendship beyond the breaking point, and there's an unexpected development in her relationship with Tellius that changes everything and makes her understand that the deepest scars sometimes cannot be seen.

Darcy isn't sure if she's prepared for another meeting with the Oracle, but if she wants to have any chance of saving her friend, she must try. To complicate matters, the evil they left behind in Alitheia has not remained dormant.

Michael Schneider

Michael Schneider is a central Texas native living in a small town outside of Austin. She is the mother of three girls and has been married to her high school sweetheart for almost 29 years. She juggles writing with a full-time career in the insurance industry, a teenager still at home—who will be going to college in the fall leaving her with an empty nest—and caring for her disabled husband.

When she's not busy writing or balancing the role of wife and mother, Michael can be found reading, quilting or gardening. She also enjoys watching science fiction movies and visiting area antique stores and flea markets with her family.

She began writing in an unconventional way—on a dare. After voicing her frustration that she couldn't find anything good to read one day, one of her daughters dared her to write something of her own that would meet the expectation she was looking for. Michael had never even kept a journal as a kid, always having been a firm believer in not putting her thoughts or feelings on paper where someone might see.

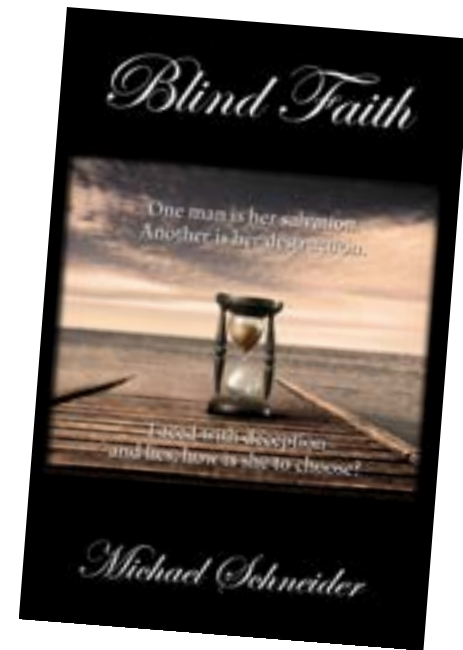

Life circumstances had taught her to see every challenge as an opportunity to learn something new—a belief she worked hard to instill in her children as well. Not one to back down from a challenge, especially one posed by her children, Michael accepted the dare. What she discovered was a new creative outlet for her imagination and a passion for writing.

She kept her writing a closely guarded secret from everyone, only sharing what she was up to with her husband and children, who were sworn to secrecy. When her passion blossomed from a fun hobby into more serious work and a publishing opportunity, it was time to share. Anyone close to Michael knew she had a twisted sense of humor and a very eclectic personality—Southern Baptist, conservative mom, and closet Trekkie. Her family and friends were curious to see what she would actually put into writing for the world to see. Over the past couple of years, she's received a few odd stares and questions, such as, "just how scary is it inside your head?" But they're always the first in line to read the next release.

(excerpt)

He looked tired. I wanted to talk to him, but it was incredibly awkward. There was no privacy at school and what the hell would I have said anyway? Most of the class I just daydreamed about being somewhere else. I did my best to ignore that somehow I had managed to let Red Dalton get under my skin.

It was so messed up. I was so messed up. Sophie's number one rule was to not let anyone in; especially stupid high school boys.

But he wasn't stupid.

"One of my hands broke loose from hers and I carefully brought it up to run through her hair. It was like silk, soft and smooth between my fingers. With a gulp, she nodded. "Hhhhhide from e-e-everyone else, b-but not from mmmme."

Sophie's amazing blue eyes widened and her breath was shaky.

"I w-worry about you."

Her breathing was raspy as she shook her head.

"I w-won't hhhurt you," I promised again.

There was a sound and I realized that I hadn't been looking directly at Sophie. I'd been focusing on her lonely ear and now that I shifted my eyes back to her face, I could see the pain my words had caused.

I understood it.

A promise like that cut deep because she didn't believe it.

A girl like Sophie expected pain. She expected every person she met to contribute to the deep well within her that housed that pain."

Where All Things Will Grow

Little battles have been fought, and old wounds have festered and healed.

The weight placed upon both Sophia Young and Elliott Dalton never grows lighter, but as they adapt to life, the burden becomes bearable. In the final chapter of their early and fragile relationship, they will be faced with the biggest challenge of them all—accept the love they've been given, or seek comfort in the cold solitary ways of their past.

Love is a lesson, but one must be open enough to learn.

When Elliott reveals more of his past and Sophie confronts more of her own, they continue on the path of joining their lives together. But where will the path lead and what will they find there? Emotionally bare and physically fatigued, they find nothing but rubble at the end of their journey. Will they accept destruction of their peace, or will they brandish the tools they've gathered along the way and cultivate a garden where all things will grow.

Excerpt ~

All night I thought about what I had revealed to Doctor Emmanuel. All night I thought about the things that made me incapable of truly being a good person, a good son, a good brother, a good boyfriend.

I thought of Sophie. She would hate me now, and I wouldn't blame her.

I hadn't spoken to her all day.

I hadn't looked at her either.

She had gone home and probably thought I hated her.

I was so tired of being incapable.

I was so tired of being wicked.

I was tired of being weak.

I was tired of being sinful.

Veronica Breville

Veronica Breville's roots are firmly planted in small town life and love of family. She grew up in the East Kansas town of Paola where there is plenty of farmland and high school sports are all the talk.

Her childhood was spent surrounded by cousins, aunts and uncles, grandparents, and great grandparents. The attention of one particular great grandmother, Helen, sparked her love of stories and books.

Little Grandma Helen - a nickname Veronica gave her when she seemed to tower over her at the age of ten - was a lover of the written word and knowledge in general. She told personal stories of frontier Kansas, the Great Dust Bowl, hard times and the love of family. Her love of reading was passed to her children, and through them, to her grandchildren and great grandchildren.

Helen's daughter, Veronica's grandmother Catherine, took over the storytelling reins and, at eighty-three, has not stopped. Grandma Katie prompted Veronica's own writing by telling her that even if she only wrote it for herself and her family, it was a gift that would live on. Veronica's mother, Judy, repeated this sentiment.

Veronica's first novel, *A Banshee's Tale*, is proof positive that the love of family is encouragement enough to follow your dreams.

In 2002 she married her husband, Curtis, who brought with him a beautiful daughter. Since then they have added two more amazing daughters. Life in their home just would not be complete without their furry, four-legged kid, wheaten terrier Bastian. He is a blond blur most of the time and loves absolutely everyone.

The Breville family began their biggest adventure in the spring of 2008 when they moved their entire family to Colorado. They currently reside in a suburb of Denver.

Veronica has found an unending supply of inspiration in the majestic state of Colorado and finds that whether she's staring out at the vast flatness of the plains or the rocky beauty of the mountains, she can't imagine living in a more vivacious place. The characters and plots running around in her head are, in great part, a product of what surrounds her.

Work is currently underway on the sequel to *A Banshee's Tale* and she hopes to have it available to her readers by early 2013.

A Banshee's Tale

Catherine Dalry feels like a normal child, growing up in a normal small town, raised by normal, middle-income parents. That is, until she starts school. Children and adults alike look at her with trepidation and scorn. She learns quickly that her version of normal and theirs differ greatly. Just as Catherine is preparing to turn sixteen, she is forced on a journey that will change her life in ways most only dream of. An ancient book teaches her of the connection between her freaky eyes and the secretive ranks she is now forced to join by matter of inheritance. She is a Guide, or in the old country, a Banshee. As far as the masses are concerned, Catherine's destiny is to be the wailing spectral woman that wanders the land lamenting and signaling the impending death of a loved one. As her life is pulled in countless directions, she leans on her best friend and psychic, Will; her beloved aunt, teacher, and fellow Guide, Lucie; and her attractive and terminally arrogant Caomhnóir or protector, Zane. The world of myth, mystery, and fairytale monsters engulfs Catherine and sets her on a course of self-discovery and life altering responsibility.
